TECNOGLASS
LECTURE SERIES 2015-16
MIAMI
& THE TROPICAL WORLD

The 2015-2016 series titled "Miami and the Tropical World" examines Miami in its accelerated transformations along with issues associated with "the tropical" as a geographic and conceptual category: climate and its influence on architecture and cities, vernacular traditions and their ability to adapt for resiliency and sustainability, and development in emerging economies. Lectures in this series are regularly scheduled on Wednesdays at 6:30 p.m., with a special edition on Friday, January 22, in Glasgow Hall located in the Jorge M. Perez Architecture Center, 1215 Dickinson Drive, Coral Gables, Florida 33146. For directions, visit www.arc.miami.edu.
