U-SoA Rad Lab: Low-Res Facade

A low-resolution display on the exterior wall of the Thomas P. Murphy Design Studio building using custom built rods with high power RGB leds. The student project will visualize the occupancy of multiple public spaces across U-SoA.

Message from Dean Rodolphe el-Khoury

I am proud to welcome you to the University of Miami School of Architecture's Career Fair! At our School, the Career Fair represents a critical component of our students' future successes and is part of a multi-pronged strategy for joining the classroom with the workplace.

The Career Fair aligns our students with internships, immersing them into real-world situations that complement their coursework with the invaluable lessons of professional experience. For graduating students, the Career Fair optimizes the transition to the profession by offering opportunities in some of the leading offices nationwide—trusted partners whose exceptional capacity to extend and intensify the learning process is sought and valued.

U-SoA's commitment to link academic excellence to professional relevance is implicit in the students' profiles featured in this booklet. They evocatively communicate the career aspirations of future professionals preparing for the next stage of their journey. The profiles also demonstrate the diversity in backgrounds, orientation, ideas and skills that characterize the student body. This diversity is in the school's DNA. It empowers our students in addressing current environmental and social challenge and in creating a more beautiful, equitable, and environmentally responsible world.

We thank you for your support in considering our students for employment and in bridging real-world practice with academia. Together, we pave the way for our future design leaders and take a valuable step in assuring their success.

U-SoA Professional Engagement

connecting our students to professions **globally**

We want to share some good news; The University of Miami School of Architecture was once again rated in the Top 25 Architecture Programs by hiring professionals. We take immense pride in our program and the students we prepare to work in the architectural profession.

“From your hiring experience during the last five years, which programs are best preparing students for a future in the profession?”

U-SoA TOP 25 Architecture programs in the US - Design Intelligence 2017-18

Internships & Part-Time Employment

U-SoA has expanded internship programs that connect our students to professional, non-profit and governmental offices globally.

PAIR | Professional Advancement, Internship + Research

Programs to immerse students off campus within host offices as both interns and research collaborators. Our network of partner offices are committed to mentoring and collaborating on research with students.

Integrated Design and Professional Sponsored Studios

U-SoA brings professional leaders and real-world design challenges into the classroom to drive innovation and engagement among students.

Visiting Critic and Emerging Practitioner Fellowship

Visiting Critic program pairs national and international acclaimed architects with U-SoA faculty to co-teach design studios. Our Emerging Practitioner Fellowship supports up and coming professionals committed to expanding and advancing the culture of architecture and design through innovative practice or research.

Career Services

Together, University of Miami Toppel Career Center and U-SoA offer a multi-prong strategy to connect and support students, alumni and employers. Students benefit from: portfolio and resume workshops, interview skills, panel discussions, skill assessments, career crawls, mentoring, shadowing and career fairs. UM is a committed partner in the students' employment goals and career building.

Graduating Students

looking for full-time position

- B.Arch. **Bachelor of Architecture**
- M.Arch. **Master of Architecture 1 & 2**
- M.R.E.D.+U. **Master of Real Estate Development and Urbanism**
- M.Sc.Arch. **Master of Science in Architecture**
- M.U.D. **Master of Urban Design**
- M.C.M. **Master of Construction Management**

Master of Urban Design | Class of 2019
Master of Architecture (2017), Bachelor of Architecture (2015)
+1 (305) 794-0050 | yxw533@miami.edu

I graduated from Ukrainian National Academy of Fine Arts and Architecture in Kiev, Ukraine for Bachelor of Architecture in 2015 and graduated from University of Miami for Master of Architecture in 2017. I have worked in Perez & Perez Architects Planners Inc. and R.E Chisholm Architects Inc. in Miami from June 2017 to June 2018. During this period, I attended the bid for the Norwegian Cruise Line Terminal B in the Port of Miami, participated in the design of a museum project, apartment project, public park project and restaurant project, and I also attended a bid for a tall business building in Brickell, Miami. To study further in architecture and explore more potentials for my career, I decided to start my Master of Urban Design study in University of Miami from Aug 2018.

I'm a diligent and innovative designer with proficient professional skills and high sense of responsibility. An initiative individual with abilities of cooperation with teammates and self-learning.

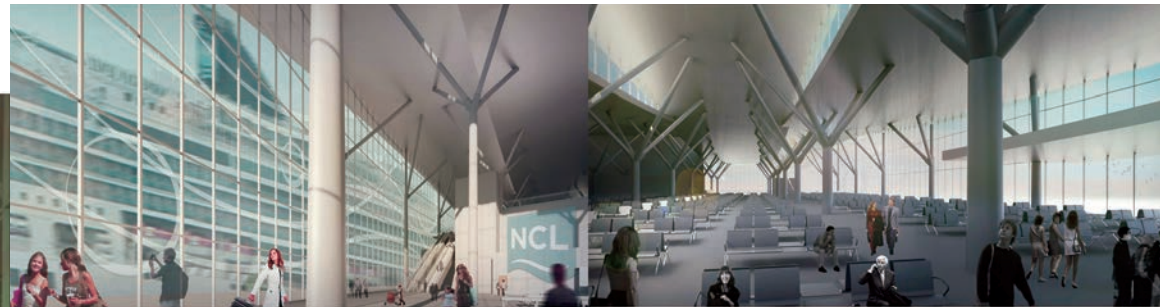

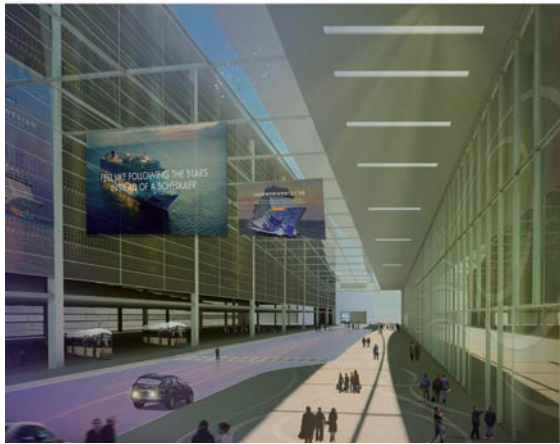

I'm proficient in AutoCAD, Rhinoceros, Revit, Sketchup, Illustrator, Photoshop, Indesign and 3D Max. And I have acquired the certificate of Leadership in Energy and Environmental Design Green Associate (LEED GA).

Norwegian Cruise Line (NCL)
Conceptual Schematic Design for Terminal-B Port of Miami

M.U.D. | Class of 2019

Bachelor of Environment Design, Zhejiang Gongshang University
+1 (305) 546-4479 | tianqixu630@gmail.com

Professional Experience and Internships

Zhejiang Southern Architectural Design Co., Ltd. | Design Assistant, March 2018-August 2018
Founded in 1991, ZSAD is a leading Chinese architectural design enterprise. It has over 1000 employees and 2000 major projects, including high profile ones - Hubin Luxury Plaza, JW Marriott Hangzhou and China Wetland Museum. Made models with Rhino and SketchUp, and layouts with InDesign for two projects; an apartment and community center. Was offered permanent position.

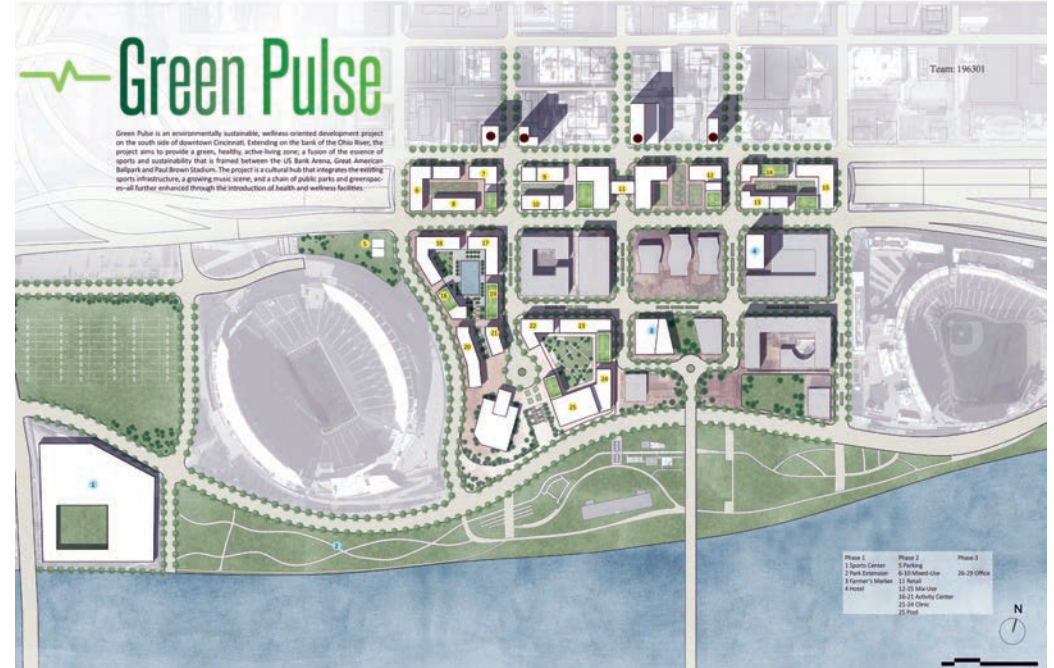

Zhejiang Urban Construction Planning and Design Institute | Design Assistant, July-August 2017
Founded in 1999, the company has over 400 employees and specializes in garden. Famous projects are Hangzhou Olympics Gymnasium, G20 Conference Green and Light Planning. Conducted preliminary investigation and analysis; master plan and diagrams; and drew renderings for Qiandaohu Tourist Zone.

Honors and Awards

Scholarship Excellent Work, 2014
Second-class Scholarship, 2015-2016
Outstanding Class Cadre, 2016

Skills

Highly proficient in Photoshop and AutoCAD. Very good knowledge of Rhino, Adobe Illustrator, SketchUp, Adobe InDesign and many other software programs.

STRATEGIES

Use water as the incising point to solve the existing problems. Water wells are categorized according to location and renovated accordingly to enhance the water well culture and the sustainability of the ecosystem. For the locals, life will be more convenient, and community cohesion enhanced. For visitors, the fun and interest will be more.

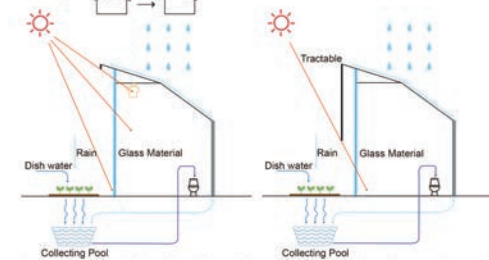

1. Courtyard

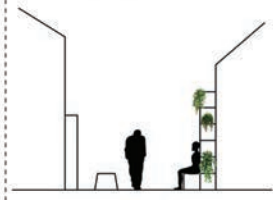

Through the different recycling methods (laundry water into sewage and dish water to be soaked to earth), recycle and better utilize rain water, which is educative and family members can all participate.

2. Buildings

Use glass for the south side to help collect sunlight and give a more spacious view; tractable sun visor because it allows residents to adjust the amount of sunlight; install hanging racks on elevated south-side tops to satisfy the demand for space to hang washed clothes; and finally a rain recycle system to recycle rain and well water.

Clear out the sundries on the passageways and install benches as well as educative boards, teaching residents and visitors the history of the water well.

1. Rest space

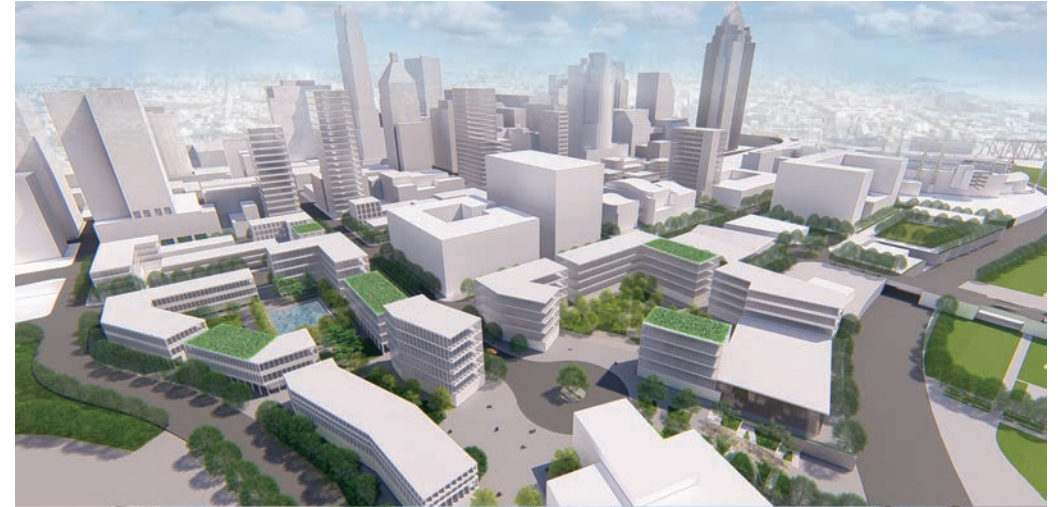

In shared courtyards, install benches and tables to encourage community interactions, such as drinking tea and playing chess.

2. Sunday market

Establish Sunday markets in some community wells. Locals can sell and buy home-grown vegetables. Visitors can experience farming. Through the cooperation and interaction offered, residents can promote community bond and break the cold and indifferent culture. Visitors can have an original experience and help promote the water well culture.

Maria Ignacia Ramos

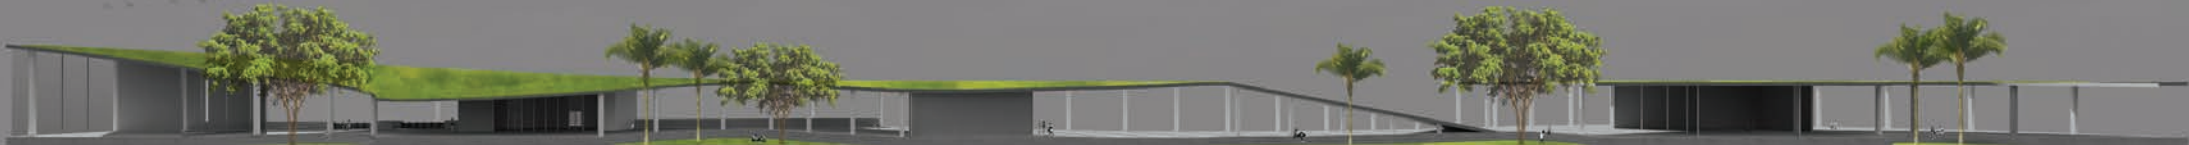

B.Arch. | Art Minor | Class of 2019
+1 (786) 609-2766 | mir23@miami.edu

I am a Fifth year student about to graduate from the University of Miami Architecture Program. Starting from at my second year, when I believed I had enough knowledge, I took advantage of all the possible job and internship opportunities. I interned at ODA, one of the top architecture firms in my home country of Venezuela. Through my undergraduate career I have completed four internships in architecture and interior design. I am currently working as a computer lab assistant for the School of Architecture and also as a teaching assistant for first year design studio.

I consider myself a very detail and goal-oriented person. During school I have learned how to approach projects through managing my time and the resources available. This is especially important when collaborating with others. I am honored to be a leader among my peers, not only for my approaches towards a good work ethics, but also for my willingness to help others to achieve a common goal. Sacrificing my individual time for the benefit of the greater collective team is how projects come into being.

M.Arch. II | Class of 2019

**Bachelor of Science in Architecture from The University of Virginia | Class of 2015
+1 (786) 502-7788 | mlacayon@gmail.com**

During my time at U-SoA, I have had the opportunity to study issues in foreign cities and propose solutions that are relevant to their socio-political aspects. A unique project was to design a wine interpretation center in Lavaux, Switzerland, a UNESCO World Heritage Center based on the design principles of phenomenology. I also spent a semester in Rome, which gave me the opportunity to explore vernacular solutions to architecture. I consider this to be a key factor when designing facilities that are meant to convey culture and sense of place. My first summer of the master program, I spent at SB Architects as an intern for three months developing my skills in Revit for construction documentation.

I have two years of experience working in a globally known firm, Stantec, where the strong support and collaboration with my colleagues helped me grow and develop leadership within the design quality and control team. During this time, I also had the opportunity to work as a freelance design assistant for two interior designers in Miami, which allowed me to submerge in other phases of design from client relations and bidding, to construction administration.

I believe that architecture is not a single profession and never will be. It gathers the ideas of many disciplines creating a bridge between art and science. It is designing for the people, a collective act aiming to make our environment better. It is about creating spaces at a human perspective, not from the sky or plan view. That's why, in my eyes, architecture should aim to collaborate aspects of social, psychological, climatic, past and present to constantly push the boundaries of architecture's existence. I am a designer, an artist and a preservationist.

www.asth.org

Bachelor of Architecture, graduating from University of Miami. I'm a design Intern for C & P studio; executing schematic design, design development and construction drawings. I began my career in Valencia, Venezuela in a very small university that concentrates in a technical approach to architecture. In my third year I was able to transfer to UM where I experienced an amazing contrast between cultures. More so, I have come to appreciate the fact that architecture is able to bridge continents. Architecture for me has been a long journey, however I believe it's a powerful tool that can change the world, and I want to be a part of that.

Florian Sauter "Realistic Utopia Studio"

The Wall Project

1/2019

The project was set to explore different ways to design a wall that facilitates an exchange of something between two people using only bristol paper, adhesive, and scissors. Personally, the models display a exploration on how to create a barrier that breaks down barriers in order to develop an understanding and connection between two people through the different types of interactions that could occur with and around the wall.

The Mixed Use Building

11/2018

The project's objective was to design a building in which is both residential and commercial and both spaces would be occupied by the same person.

The tea lounge was designed off of the concept of terrace farming as well as built off of the principles of creating a space to foster community. The model was part of the final design studio project for the Fall 2018 semester.

M.Arch. | Class of 2020

+1 (443) 985-4671 | JNR81@Miami.edu

Professional Experience

University of Miami School of Architecture, Miami, FL | Research Assistant (Lu_lab), Christopher Meyer, AIA, Jan. 2019 - Present

Assistant at LU_lab, which operates as a knowledge-gathering center and project-based design group focused on the evolving dialogue binding urbanism and environment. Work has included a presentation for the floating cities exhibition that acknowledges the importance of fluid cities that adapt to every changing environment.

Wilmot Sanz, Gaithersburg, MD | Intern Architect, May - Dec. 2018

Wilmot Sanz Architects specializes in healthcare architecture across D.C., Maryland, and Virginia. Worked on projects in every stage of the design process; created thematic presentations, floor plans, solved programmatic problems, performed site analysis and massing studies, created punch list and back punched during the construction phase, Processed COPs and PCOPs, and synthesized IBC codes for numerous projects.

CUA School of Architecture, Washington, D.C. | Research Assistant, Patricia Andrasik, Assoc. Dean, August - December. 2018

Worked under direct supervision to help rewrite the LEED Lab book. Contracted by Routledge Publishing to help write a new version of the LEED LAB curriculum. Curriculum is used to teach students the LEED certification process.

Achievements

Tau Sigma Delta National Honor Society Member, Catholic University Chapter, Washington, D.C., Nov. 2018

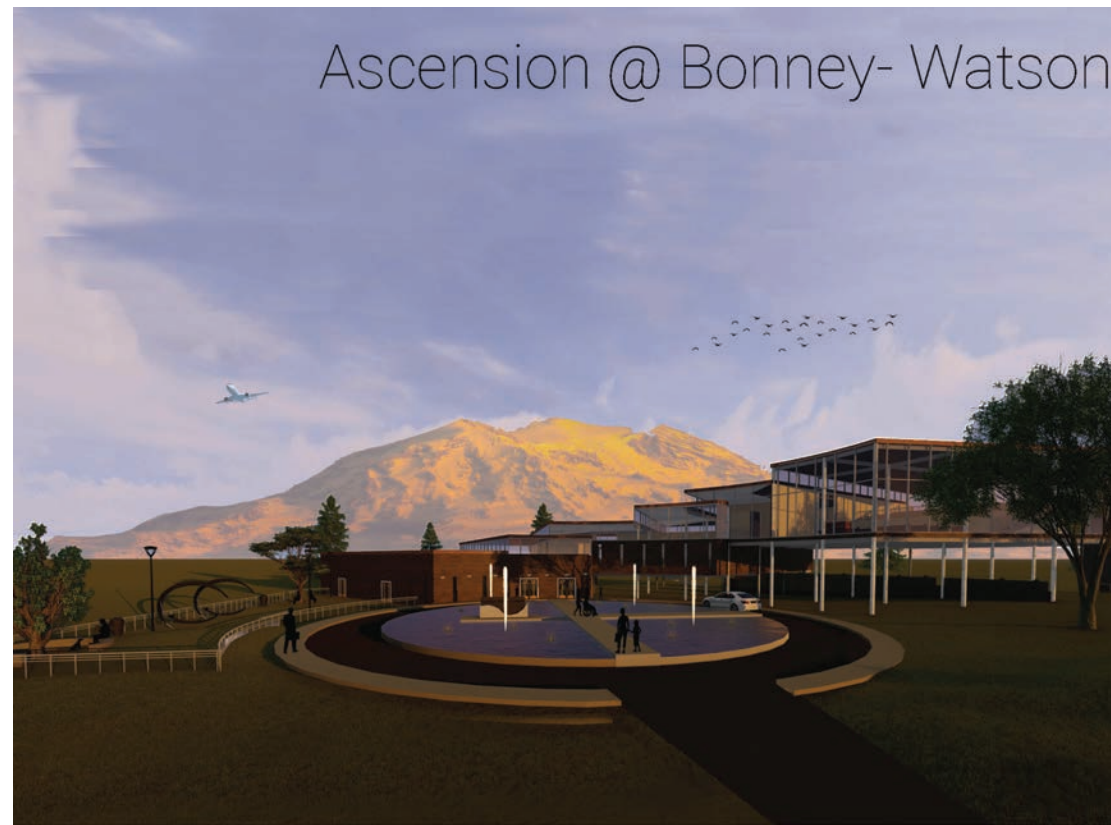

Tau Sigma Delta, the National Honor Society in Architecture and the Allied Arts is an honor society that celebrates and acknowledges excellence in scholarship and stimulates academic achievement and leadership. To be selected students of the school of Architecture and Planning must be in the top 20% of their class and possess a minimum 3.0 GPA. Tau Sigma Delta at CU Arch is active in promoting academic excellence, scholarship, and leadership.

Competitions

AIA Interschool Design Competition Participant, National Building Museum, Washington, D.C., Sep. 2018

For competition, participating schools select 8 students to participate in the program. Students teams are organized with one student from each school per team. At competition, participants were given nine hours to develop entries to include 2 boards and a model. The design problem was creation of a sustainable, affordable, housing complex and daycare center in Washington, D.C., integrating it into an urban garden, an outdoor educational playground (for both the residents and the daycare), and apartment amenities to improve the livelihood of the residents.

Livia Brodie

B.Arch. | Class of 2023
+1 (347) 698-2168 | lxb773@miami.edu

Professional Experience

AIA New York | Center for Architecture | Volunteer in K-12 Summer Program, Summer 2018
Assisted in courses for K-8 students at CFA, where I had been a student myself from the ages of 12-16.

Parsons School of Design | Interior Architecture and Graphic Design Precollege Saturday Program at Fall 2016 to Spring 2017.

Learned Adobe Photoshop and Illustrator and used the programs to design a store within a shipping container, 3 event flyers, and typography art.

Cornell University Summer College, School of Human Ecology | Design Immersion, Summer 2017
Spent 3 weeks studying design strategy themes, the manner in which humans interact with spaces and objects, and the ergonomic merit of everyday items.

Completed projects in graphic and product design: constructed a working pendant light, and a logo.

The Cooper Union | Introduction to Architecture, Precollege Program, Summer 2016

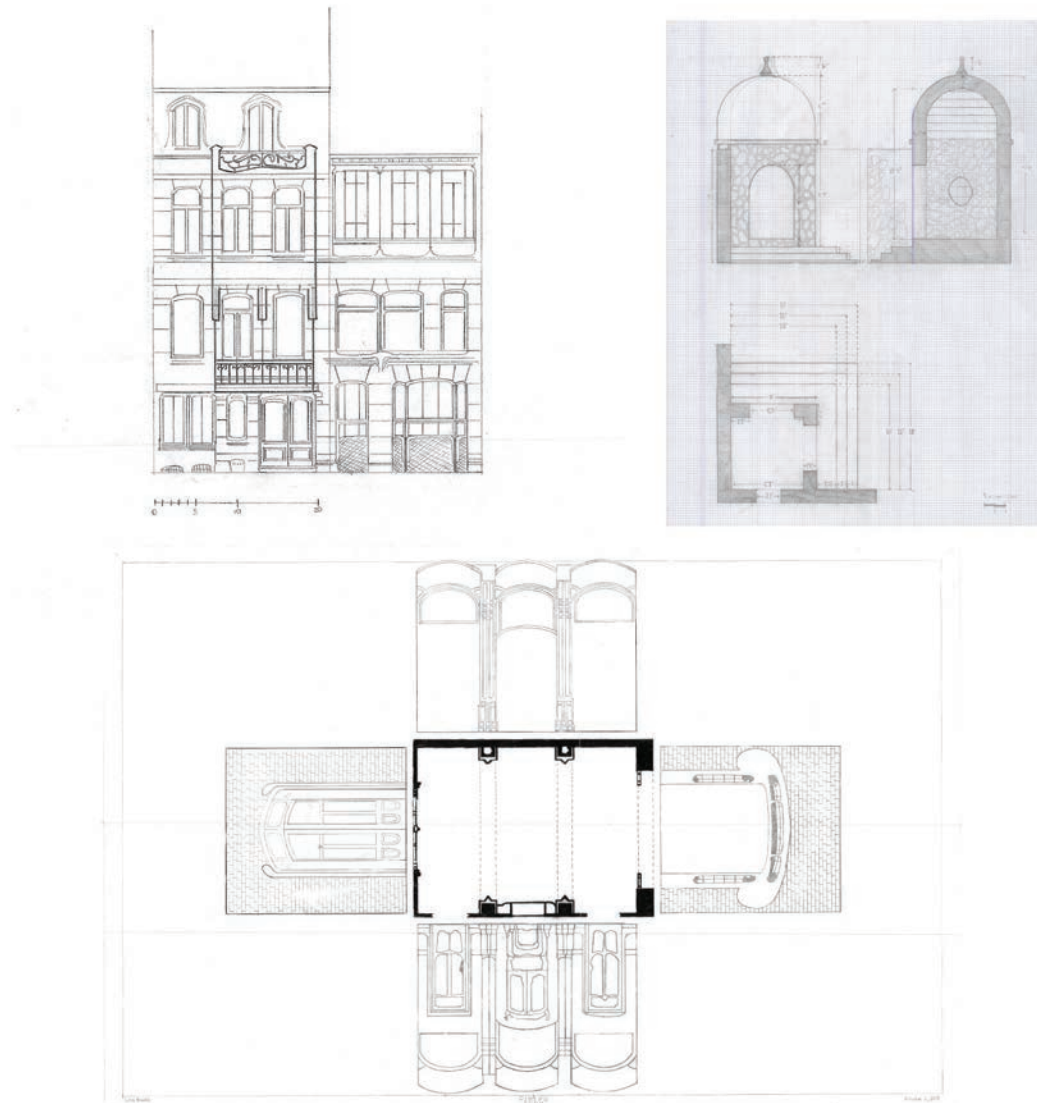

Formally learned drafting and drawing techniques and constructed models out of various materials, including wood, wire and clay.

Awards

Dean's List, Fall 2018, University of Miami

Skills

Adobe Photoshop, Illustrator, InDesign, AutoCAD

Maria Aparicio

B.Arch. | Urban Studies | Class of 2021

+1 (786) 222-0630 | mca146@miami.edu | mariaaparicio.weebly.com

Professional Experience

University of Miami School of Architecture Woodshop | CNC Controller, Fall 2016
Operator for a computer numerical control machine; assisted students with cutting and files.

Miami-Dade Transit | Architecture and Marketing Intern, Fall 2016 - Spring 2017
Worked on illustrations for transit route maps and finalized map prints as well as advertisements for the Architecture and Marketing team in the Miami-Dade Transit Department.

Aecom | Ace Mentorship Program, Fall 2015
A Mentorship Program where select DASH students are mentored by Aecom architects to create a design for a competition created by the Ace Mentorship program.

Perkins + Will | Ace Mentorship Program, Fall 2014
A Mentorship Program where select DASH students are mentored by Perkins + Will architects to create a design for a competition created by the Ace Mentorship program. Our design won First place in Architecture Bus Transportation & Civic Center as best board.

Awards and Scholarships

Villager's Scholarship 2016
CV Starr Scholarship and the Hurricane Scholarship 2016
1st Place, Architecture Bus Transportation & Civic Center, Best Board Prize (Ace Mentorship), 2014

Skills

AutoCAD, SketchUP, Rhino, Revit, Lumion, Adobe Programs
Extensive background in art, interior design, and urban studies; looking for an inspirational and hands-on experience in an architectural summer internship.

Laura Leichtman

William Barrett

B.Arch. | Class of 2022

+1 (954) 397-2679 | wjb78@miami.edu

Resume Highlights

A second-year undergraduate with a dedication to both the University of Miami School of Architecture (U-SoA) and the university as a whole.

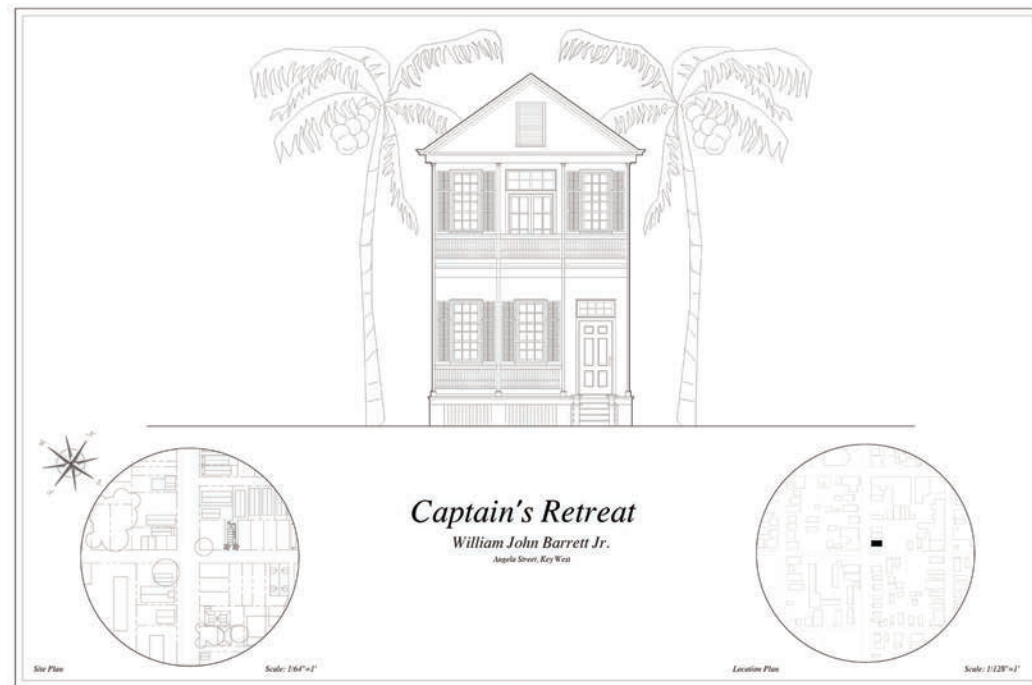

A senator for the School of Architecture, a First Year Fellow, and most recently, an U-SoA Ambassador.

Experience

Though only in second year, have had experience working at Tuthill Architecture in Fort Lauderdale, FL.

Skills

Primary skill set lies in three-dimensional modeling and rendering, with both SketchUp and Rhino 6. Hard-worker; constantly striving to challenge myself both inside and outside of the classroom.

Caroline Cozzi

Masters of Real Estate Development and Urbanism | Class of 2020
+1 (954) 980-2348 | cozzicaroline95@gmail.com

Professional Experience

Florida Gulf Coast University, Undergraduate Degree in Marketing, 2018

Awards

Florida Gulf Coast University, Dean's List 2015
Lutgert College of Business Research Day Honorable Mention

Skills

Creating marketing materials, social media, photography, proficient in Microsoft Office (Word, Excel, PowerPoint) and sales.

Emily Suarez-Aviles

B.Arch. | Art Minor | Class of 2020
+1 (786) 580-6539 | ecs38@miami.edu

Resume Highlights

4th-year undergraduate student at the University of Miami School of Architecture (U-SoA), with a great fascination for art and architecture.

Working on obtaining a B.Arch degree while also working on a Minor in Art. This has afforded me a great knowledge of various branches of design and has complemented my projects as an architecture student.

Simultaneously, I have been working for the School of Architecture's computer lab helping students with different issues regarding architecture, graphics, software, modeling, and design.

In these four years, I have developed a deep understanding of a wide range of programs including AutoCAD, Revit, Rhino, and Adobe Programs.

I am a hardworking, proactive, fast learner and self-motivated person with a lot of determination when it comes to creating content for myself or for others.

Julia Zollner

B.Arch. | Class of 2019
+1 (609) 712-4002 | zolls@miami.edu

Professional Experience

Martin A. DeSapio, AIA, Internship
ModernBlox, LLC, Assistant

I am an architecture student fascinated with strategies for green design and a passion for the planet. I enjoy photography, graphic design, sculpture and almost any medium for artistic expression. I am organized, a strong communicator, and I appreciate working with people. I feel that focusing on resiliency strategies and environmental concerns, especially in Miami, is vitally important to the field of architecture.

I have experience working at a firm, Martin A. DeSapio, AIA as an intern focusing on residential design. I also have worked remotely with ModernBlox, LLC, helping this start-up company design shipping container homes and businesses.

I have study abroad experiences including a semester at sea in the Caribbean and a trip to Japan for an Open City Studio experience with the University of Miami School of Architecture. I plan to travel to Rome this coming fall for my final semester as an architecture student and hope to learn much from the experience.

Skills

AutoCAD, Digital Photography, Photoshop, InDesign, Lightroom, Illustrator, Revit, and Rhino 3D.

Chicago USGBC 2018 Conference Volunteer

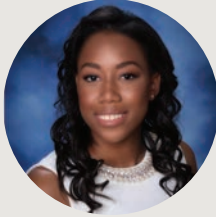

Skills

Proficient in AutoCAD, drawing, Photoshop, In design, Illustrator, Rhino, Microsoft Office
Fluent in English, Chinese

As an architecture major, I am more interested in building green buildings which can create a sustainable environment for our earth.

Sheinya Joseph

B.Arch. | Entrepreneurship | Class of 2022
+1 (978) 601-9090 | sjoseph_23@yahoo.com

Growing up, I have always been fascinated by the structure of the buildings involved in our daily lives. Through architecture, I seek to enhance the quality of life for people all over the world, whether it's for personal desires or by essential needs.

I cherish the idea of having the ability to design the place where one resorts to after a day filled with life activities, knowing that there, their desire for comfort is fulfilled. A place to separate their work and social life from their personal life or to even combine them together.

I am passionate about reinforcing this necessity for the various needs and wants whether it's through affordable or extravagant methods.

My interests include real estate development and investment, property renovation, and interior design. In 2018, I obtained my Real Estate Salesperson license for the state of Massachusetts to further immerse myself into the business industry of residential development, thus allowing me to take part in the transactions that occur past the architectural concepts and construction of a building.

I am a part of the USGBC student organization and collaborate with other members on project activities in the realm of sustainability and environmental issues.

I am proficient in: AutoCAD, Sketchup, Adobe InDesign, Adobe Photoshop, Adobe Illustrator, and Adobe Lightroom. Other skills include hand drafting, sketching and analytical drawings.

Rebecca Rudner

ARE YOU READY TO BE INSPIRED?

For nearly 60 years, SB Architects has had the pleasure of working on some of the most unique hospitality focused projects around the globe.

From the famous Fisher Island development to 100 Las Olas, soon to be the tallest tower in Ft Lauderdale; from the legendary Dorado Beach Resort, a Ritz-Carlton Reserve to the innovative retail destination, Miami Design District - we bring thought-provoking design ideas to life.
